

127 Troux-Business Objects Reporting for Business Users

This course is designed to be an add-on to Troux introductory and business user courses. It prepares end users to make use of Web Intelligence, the drag-and-drop reporting application within Troux Intelligence, to create Business Objects-based reports from Troux Metaverse data.

COURSE OBJECTIVES:

Upon completion, the student will be able to use Web Intelligence to create reports and analytics using Business Objects Universes for the Troux Metaverse.

COURSE TOPICS:

- Introduction to Troux Intelligence
- Troux Intelligence Interfaces and Standard Reports
- Troux Intelligence Ad-hoc Report Development
- Creating List, Chart, and Crosstab Reports
- About Business Objects Universes
- Sorting and Filtering Options
- Report Prompts
- Calculated Columns
- Summarizing Data

COURSE PREREQUISITES:

Completion of *125 Troux Fundamentals*, or equivalent experience, required.

COURSE LENGTH:

One-half day, or 1 web-based delivery session.

COURSE COST:

\$825 per student
