

## 327 Transition Planning with Trouw Initiatives

In this class, students are introduced to the Trouw Initiatives Manager solution and best practice methodologies for transition planning. In hands-on exercises, students will create initiatives that model typical transition planning, capital planning and investment control, and alternatives analysis use cases.

### COURSE OBJECTIVES:

Upon completion, the student will be able to use the Trouw Initiatives solution to view, manipulate, and model transition plans. The student will understand best practice methodologies for creating and managing future target architectures and interim states.

### COURSE TOPICS:

- Understanding Transition Planning
- Transition Planning Methodology
- Analyze, Design, and Operate Phases
- Creating Initiatives, Scenarios, and States
- Managing State Data Using Trouw Explorer
- Modeling States Using Trouw Architect
- Monitoring Progress Using Reflection Events and Difference Reports

### COURSE PREREQUISITES:

Completion of both *111 Trouw Architect Essentials* and *125 Trouw Fundamentals* required. Strategic planning experience recommended.

### COURSE LENGTH:

Two days or 3 web-based delivery sessions.

### COURSE COST:

\$1650 per student
